

REMARKS

Applicant notes with appreciation that claims 131-152 are allowed. Claims 1-130 are cancelled. Claims 131-152 are pending in the present application.

The specification stands objected to because of certain informalities. Applicant directs the Examiner's attention to the amendments to the specification beginning on page 2 of the Amendment in Response to Non-Final Office Action, filed January 12, 2005. The dopant concentrations in the specification were amended to provide concentrations in ions/cm³. Accordingly, Applicant submits that correction has already been made and respectfully requests that the objection be withdrawn.

Claims 124-130 are cancelled in this amendment.

In view of the above amendment, applicant believes the pending application is in condition for allowance.

Dated: June 7, 2005

Respectfully submitted,
